

Sai Prakash Sikhakolli

Senior Java Backend Developer | Hyderabad, India

+91 91821 97769 | saiprakash1916@gmail.com | LinkedIn | GitHub

Software engineer with 5.2 years of experience designing and developing enterprise-grade applications in the Banking and Financial Services domain. Skilled in Java, Spring Boot, Microservices, Distributed Systems, RESTful APIs, CI/CD, and application monitoring using Splunk. Proven track record of delivering scalable backend solutions that improved application performance, reduced downtime, and enhanced system reliability. AWS Certified Developer – Associate with a strong understanding of cloud concepts and services. Continuously expanding practical expertise in React.js, Node.js, and AI-powered application development through hands-on projects.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript

Frameworks & Technologies: Spring Boot, Spring Framework, Microservices, RESTful APIs, React.js, Node.js, HTML5, CSS3

Developer Tools: Maven, Git, Jenkins, Docker, CI/CD, Splunk, Postman, JIRA, JUnit, Mockito, GitHub Copilot

Core Competencies: Object-Oriented Programming (OOP), Collections Framework, Design Patterns, Distributed Systems, API Design, Performance Optimization, Workflow Automation, Agile/Scrum

WORK EXPERIENCE

Tata Consultancy Services

India

System Engineer | **Client:** JP Morgan Chase

Mar 2023 – Present

Domain: Banking & Financial Services

Technologies: Java | Spring Boot | Microservices | REST APIs | Jenkins | Docker | Splunk, | React.js

- Designed and enhanced scalable backend services for enterprise banking applications, improving API response time by **40%** and increasing system throughput for high-volume transactions.
- Developed a DSL-based backend automation framework that simulated complex workflows, reducing manual effort by **70%** and improving testing efficiency across UAT and Production.
- Built proactive monitoring and observability solutions using **Splunk dashboards and alerts**, reducing production downtime by **80%** and accelerating incident resolution.
- Improved production stability through enhanced logging, debugging, and root cause analysis, reducing error logs by **80%**.
- Developed an internal automation platform that streamlined DSL creation and issue resolution workflows, reducing manual effort by **80%**.
- Automated dependency upgrades using Maven Rewrite recipes, improving maintainability and reducing upgrade effort by **90%**.

Virtusa Consulting Services

India

Associate Engineer (Java Developer) | **Client:** Citi Bank

May 2021 – Mar 2023

Domain: Banking & Financial Services

Technologies: Java | Spring Boot | REST APIs | SQL

- Developed and optimized payment processing modules for enterprise banking applications, improving transaction processing efficiency by **30%**.
- Redesigned payment workflows, reducing transaction failures by **20%** and enhancing customer experience.
- Built an AI-powered multilingual data processing solution for seamless encoding and decoding of multilingual data across banking applications.
- Wrote optimized SQL queries for transaction validation and reporting, improving data verification efficiency.
- Collaborated with QA, business stakeholders, and cross-functional Agile teams to deliver reliable software releases with minimal production defects.

CONTINUOUS LEARNING

Continuously expanding technical expertise by building AI-powered applications and exploring modern software engineering practices. Developed projects including an AI Chatbot, AI Web Page Summarizer, and Multi-Model LLM Arena using Python, OpenAI-compatible APIs, prompt engineering, and LLM integrations. Regularly publish well-documented projects on GitHub, reflecting a commitment to practical learning, clean software design, and staying current with emerging technologies.

CERTIFICATIONS

- AWS Certified Developer – Associate
- GitHub Foundations Certification

EDUCATION

K.S.R.M College of Engineering

2017 – 2020

Bachelor of Mechanical Engineering
